SEND & SEARCH LIKE A PRO

After more than four years of development, PIEPS presents a new groundbreaking avalanche transceiver that heralds a new era: The **PIEPS PRO IPS** with an **80m search strip width** and industry leading send and search performance thanks to its **INTERFERENCE PROTECTION SYSTEM** and its **DUAL ANTENNA SIGNAL PROCESSING** technology.

INTERFERENCE PROTECTION SYSTEM (IPS)

This unique technology compensates for the influence of electronic and metallic interferences on the transmitter by analyzing and adapting to the interfering signals. Thus, in send mode, the **PIEPS PRO IPS** maintains maximum transmission power, unaffected by interfering signals.

Therefore, when burried due to an avalanche, users of the **PIEPS PRO IPS** no longer have to worry about interference from personal objects that could minimize the transmission power in send mode.

Electronic products can cause different types of interference. The IPS system is able to compensate for a large part, but due to their diversity, we cannot exclude all sources of interference. Therefore, we still recommend to keep a minimum distance of 20 cm in send mode and 50 cm in search mode to possible sources of interference.

DUAL ANTENNA SIGNAL PROCESSING

The already leading signal tracking quality of PIEPS has been further enhanced with the **PIEPS PRO IPS**. Thanks to **DUAL ANTENNA SIGNAL PROCESSING**, simultaneous signal processing is performed on the X and Y antennas. This ensures even more precise localization of the transmitted signal, effective elimination of ghost signals and a very high, true range. This gives the user an extremely reliable and stable direction indication from the very first signal.

IPS
INTERFERENCE
PROTECTION SYSTEM
Protection against
electronic and metallic Interferences

**DUAL ANTENNA
SIGNAL PROCESSING**
Increased range and accuracy due to simultaneous
signal processing on both antennas.

>>THE BETTER YOU SEND,
THE EASIER YOU ARE TO FIND<<

FEATURES:

- ✓ Interference Protection System
- ✓ Dual-Antenna Signal Processing
- ✓ Advanced Search Control (acoustic, visual and haptic search support)
- ✓ Optimized display for polarized sunglasses
- ✓ Protected On/Off button
- ✓ Switch-off reminder
- ✓ PIEPS Backup Mode
- ✓ Group check Pro-Mode
- ✓ Analog mode
- ✓ Victim selection
- ✓ SCAN function
- ✓ Perfect marking performance
- ✓ Vibration motor
- ✓ Auto-Search-to-Send
- ✓ Compact, pocket-friendly design
- ✓ Update capability with Bluetooth and PIEPS APP

Search strip width	80 m
Weight	212 g (incl. batteries)
Battery lifetime	min. 600 h SEND-mode with Lithium batteries min. 400 h SEND-mode with Alkaline batteries
Power supply	3x Alkaline (AAA) / 3x Lithium (AAA)
Dimensions (LxWxH)	120 x 75 x 24 mm
Included in package	PIEPS PRO IPS, carrying system, hand loop, 3x Alkaline AAA batteries, Quickstart guide #PP1129030000ALL1

PIEPS POWDER BT

The "all-rounder" among the avalanche transceivers on the market, with high performance and features that are unique in this price range.

The PIEPS Powder BT is easy to use, carefully designed and solidly built. With integrated bluetooth technology and our PIEPS app, the settings of the avalanche transceiver can be managed, the firmware updated and the functionality tested. The app offers several training scenarios to improve rescue skills.

- ✓ Easy handling
- ✓ Auto-Antenna-Switch
- ✓ Signal verification for a stable signal upon first detection
- ✓ Perfect mark performance
- ✓ Illuminated display
- ✓ 3-Antenna-Technology
- ✓ Group check
- ✓ Auto search-to-send
- ✓ Extensive self check
- ✓ Compatible with the PIEPS-App, via Bluetooth connection

Maximum range	60 m
Search strip width	60 m
Weight	220 g (incl. batteries)

PIEPS iPROBE BT

60%
time saving in
pinpointing
& probing

The PIEPS iPROBE BT is the electronic probe with an acoustic and visual hit indicator for a faster companion rescue and enables a wireless device management via Bluetooth and PIEPS-APP.

- ✓ Bluetooth
- ✓ Auto-Switch ON/OFF
- ✓ Multiple burials support through automatic sleep-mode of PIEPS beacons with iPROBE support (configurable via PIEPS-APP)
- ✓ Centimeter scale
- ✓ Easy and fast assembly of the probe
- ✓ Speed-Cone-System for quick extension
- ✓ Quick-closing latch for reliable locking of the probe
- ✓ Elastic closure buckle
- ✓ Probe length identifier for POS (different colors of handles)
- ✓ Software Updates

PIEPS JETFORCE BT

The innovative JETFORCE BT technology offers multiple deployments and the ability to recharge it conveniently at home. Therefore you do not need to worry about exchanging cartridges and you can train for an emergency, without worrying about the costs. Thanks to the multiple deployments you can always trigger the airbag when the situation gets dicy.

PIEPS JETFORCE BT

JETFORCE

- ✓ 100% battery discharge protection

✓ Suitable for helicopters and cable cars without deactivating the system

✓ Deploy trigger can be switched to left or right shoulder strap and the height can be adjusted

✓ Multiple deployments
- ✓ Air-travel friendly

✓ Automatic airbag deflation after 3 minutes to create an air pocket

✓ Automatic self-diagnosis

✓ CE-certification as personal protective equipment

✓ Compatible with the PIEPS-App, via Bluetooth connection

ELECTRONIC SYSTEM
with jet-fan technology that only needs ambient air for inflation

PIEPS APP
conveniently update the firmware, run device checks and change settings

BASE + ZIP-ON

FLEXIBLE MODULAR
ZIP-ON SYSTEM

- ✓ Leg-loop with easy-to-use carabiner clip for quick attachment and stowable
- ✓ Safety gear compartment with yellow-marked zipper
- ✓ Special helmet holder
- ✓ Ski carrying system (diagonal)
- ✓ Ice axe attachment
- ✓ Sternum strap with integrated emergency whistle
- ✓ Front-loading accessory pocket
- ✓ Reflecting design elements

LI-ION-AKKU

WORKS EVEN AT -30°C

The JetForce-system uses a specially designed Lithium-Ion-battery, which generates high current even at very cold temperatures (-30°C).

LONG LIFE

500 charge cycles ensure a long lifetime, low self-discharge for easy storage properties.

BATTERY MANAGEMENT SYSTEM

The intelligent battery management system (BMS) is equipped with temperature sensors to ensure an optimized battery-performance as well as protection (e.g. depth decharge and charging at temperature below zero).

PIEPS DEVICE-SERVICE

Why to service your PIEPS Safety Equipment?

If you are on tour, your PIEPS Safety Equipment is exposed to extreme conditions such as sub-zero temperatures and humidity.

Your PIEPS Safety Equipment meets the highest technical demands and standards. However, all technology is subject to aging.

For your own safety, please have your PIEPS Safety Equipment serviced!

SCAN THE
QR-code below
to initiate the
process

How often should you service your PIEPS Safety Equipment?

- First service after 3 years*
- Second service after 5 years*
- After that annually*

*from the date of purchase

PIEPS 30°PLUS XT

The PIEPS 30°PLUS XT is an electronic inclinometer for checking the slope angle easily and quickly.

SAFETY EQUIPMENT

- ✓ Easy to attach to all standard ski poles
- ✓ Train to improve slope gradient estimation
- ✓ Support in assessing avalanche danger
- ✓ Shock absorbing design
- ✓ Replacable coin cell

Power supply	Coin cell CR 1225/1220
Battery lifetime	3 - 5 years; min. 1.000 measure- ments
Dimensions (LxWxH)	105 x 23 x 13 mm
Inclinometer measurement	0° to 90°
Temperature measurement range	-20°C bis +45°C, -4°F bis +99°F
Weight	42 g (incl. battery)

PIEPS FIRST AID

The PIEPS FIRST AID PRO is an emergency kit for First Aid on tour. The high quality filling with Aluminum synthetic splint included is perfect for outdoor activities.

- ✓ Available as FIRST AID PRO (filled) or as FIRST-AID SPLINT (unfilled)
- ✓ Big handle for use with gloves
- ✓ Two main compartments for better arrangement and overview
- ✓ Stow pocket for aluminum synthetic splint
- ✓ Splint keeps the main compartments open
- ✓ Additional small inner compartments

Dimensions (LxBxH)	26 x 18 x 7,5 cm
Weight First Aid Splint	230 g
Weight First Aid Pro	450 g
Material	RipStop Nylon
Color front	red - black
Color back	yellow - black

PIEPS BIVY

SOLO | DUO | DUO ALIEN

The PIEPS BIVY plays an essential part in companion rescue and may save lives. Durable and robust, easy to store, compressable and helpful in many scenarios.

- ✓ Optimized cut, more shoulder length
- ✓ Silver coating on the inside
- ✓ Easy to store, compresses to a small size
- ✓ Closes with a cord
- ✓ Printed alpine emergency signals
- ✓ 8 strengthened lugs on the side (forces checked)

MULTIPLE SCENARIO USAGE

- Use as bivouac
- Provisional evacuation tool in case of emergency
- Multifunctional use on tour (seat-pad, sun sail, rain poncho...)

EASY PACKAGING
compresses to a small size

PIEPS TRAINING

15 MINUTES

Within this time a victim has to be rescued.

Only a rescuer who uses the essential emergency equipment (beacon, probe, shovel) can successfully complete companion rescue within this time!

TRAIN REGULARLY

and familiarize yourself with your equipment (recommended from all organizations & associations globally) [en](#)

PIEPS ART BASIC

THE PIEPS ART BASIC ENABLES FAST AND FLEXIBLE AVALANCHE RESCUE TRAINING WITH THE PIEPS APP.

1. PIEPS TRAININGS TOOL

The PIEPS APP turns PIEPS BLUETOOTH beacons in configurable transmitters.

2.

- ✓ 4 beacons provide 80 different training scenarios
- ✓ The PIEPS APP serves as remote control for your training devices
- ✓ Special courses for different experience levels

Up to 80
different scenarios

3. PIEPS TRAINING PAD

- ✓ Durable, robust material
 - ✓ PIEPS POCKET for beacon
 - ✓ Multiple pads can be connected with carabiner
 - ✓ Easy to transport
 - ✓ Dimensions (LxW): 50x45 cm
 - ✓ Weight: 1.250 g
- #PP1100140000ALL1

Integrated
stop watch to challenge
you team

Every transmitting antenna
can be controlled
individually

4. PIEPS ART BASIC POWDER BT LIEFERUMFANG:

- ✓ 1x PIEPS POWDER BT
 - ✓ 1x PIEPS TRAINING PAD
- #PP1100000000ALL1

PIEPS ART MOBILE

THE PIEPS ART MOBILE IS A MOBILE TRAINING TOOL FOR PRACTICING THE USE OF THE RECOMMENDED AVALANCHE SAFETY EQUIPMENT.

1. PIEPS TRAININGSTOOL

- ✓ Battery capacity for one season
- ✓ Automatic hit indication (acoustic, visual)
- ✓ Every transmitting antenna can be controlled individually
- ✓ Stop watch
- ✓ Usage with gloves
- ✓ Power supply:
Remote Control: 3x Alkaline LR03 (AAA)
Transmitter Box: 4x Alkaline LR20

WINTERPROOF: can
remain at the practice
field during the entire
winter

2. PIEPS TRANSMITTER BOX

- ✓ incl. sensor plates made of fiberglass
 - ✓ Battery-powered
 - ✓ Dimensions (LxWxH): 24x16x6 cm
 - ✓ Power Supply: 4x Alkaline LR20
- #PP1100100000ALL1

Up to 80
different scenarios

Create different scenarios
with the PIEPS-APP

3. INCLUDED IN PACKAGE:

- ✓ 1x PIEPS ART MOBILE CONTROL
 - ✓ 4x PIEPS ART TRANSMITTER BOX
 - ✓ 1x PIEPS RUCKSACK TRACK 30
- #PP1100050000ALL1

PIEPS ART STATION

PIEPS CHECKPOINT

THE PIEPS TRAINING FIELD FOR YOUR FREE-RIDER & SKI TOURER-COMMUNITY

- ✓ Various power supply options: battery, hard-wired, photovoltaic
- ✓ Included in package: PIEPS ART STATION (1x base unit, 4x transmitter boxes - expandable up to 12x, 4x training pad)
- ✓ Optional: 4x PIEPS beachflags and 100 m boundary cord for marking out the training field

1. YOUR CONTRIBUTION TO SAFE FREE-RIDING & SKI TOURING
Off-piste safety starts with training. The PIEPS training field delivers quick results due to fast and effective training with a fun factor.

2. MINIMAL MAINTENANCE EFFORT
The PIEPS ART STATION is available in a hard-wired, battery-powered or environmentally friendly photovoltaic version. Every version is completely maintenance-free at full performance for the whole season.

3. SELF-SUFFICIENT TRAINING FIELD FOR OPTIMIZED PREPARATION OF THE FREE-RIDER & SKI TOURER GUESTS
The PIEPS ART STATION is available 24/7 with no additional support needed and enables different searching scenarios using the controller unit or a smartphone.

Available 24/7 with no support needed for the whole season

Intuitive handling with the controller unit or PIEPS-APP

Maintenance-free installation

Up to 80 different scenarios

PIEPS ART STATION INCLUDED IN PACKAGE:

- ✓ 1x PIEPS ART STATION Base Unit
- ✓ 4x PIEPS ART TRANSMITTER BOX
- ✓ 4x PIEPS TRAINING PAD
